Prophetic Sunnah Research Centre is pleased to announce the theme of the 11th International Symposium

## The Humanity of Humans in the Prophetic Sunnah Universal Values and Sharia Regulations

Praise and Thanks be to Allah, The Almighty and May His blessings be on Mohamed and his family and companions.

Man has been numerously celebrated in various verses in the Holy Quran: a proof of being the perfect creation of Allah that has been honored with reason, knowledge that legitimate him for being Allah's designated successor for the process of populating and reconstructing earth. Privileged with reason, Man has been, thus, entitled to utilize his humanity for the sake of synthesizing material and cognitive production resources with those spiritual ones, while maintaining Allah's universal rules and foundations. However, the tandem of the circumstances has -to a big extent- spoilt man's innate Fitrah or creation and deviated him from the route set by Allah. The cure to this is to be found only in Quran- Allah's Holy book- the Sunnah of his Messenger: Prophet Mohamed. Sunnah has offered clear-cut ways of reviving the inherited values of humanity and providing the human soul with reasons of wellness and fertility. Sunnah works on maintaining deviation from the pure innate nature humans were created with and redirecting humans to the correct path. For the above reasons, Prophetic Sunnah Research Centre has decided to dedicate its 11th Symposium to the topic of The Humanity of Humans in the Prophetic Sunnah: Universal Values and Sharia Regulations. It is intended to provide a broad material for researchers to come up with different treatments and productive visions and interpretations.

### Reasons for Choosing the Topic:

1. The persistence of the materialistic tendency that has transformed the essence of man, making him a deaf machine for material and technological production
2. The limitation of intellectual and philosophical theories to dealing with the material and formal aspect of man, and their inclusion in the spiritual and moral aspect
3. Clarification of the primacy of the Prophetic Sunnah to rooting the universal values that sponsor human humanity, and preserve its spiritual and moral essence, without neglecting the noticeable human difference, and the emergence of the occult specificity of persons

## Objectives of the Symposium

1. Explanation of the human characteristics of man in the Prophetic Sunnah, its components, and the approach to preserving and rationalizing it
2. Highlighting the universal values that sponsor humanity in the Prophetic Sunnah
3. Formulating guiding controls for human humanity in its behavioral, intellectual, and productive dimensions
4. Establishing the basis for the legislative superiority of the Prophetic Sunnah in treating human psychological diseases and putting them on the path of adult universal values, through holding analytical balances between the prophetic treatment and the philosophical approach
5. Criticizing the fallacy of intellectual and philosophical approaches to human humanity in light of the remarkable integration between the material and the spiritual aspects, in the light of the Prophet's Sunnah

## Symposium Topics

1. Humanity in the Prophetic Sunnah: Concept and Approaches
2. Humanity in the Prophetic Sunnah: Controls and Purposes
3. Humanity in the Prophetic Sunnah: Values and Instructions
4. Humanity in the Prophetic Sunnah: Components and Guarantees
5. Humanity in the Prophetic Sunnah: Domains and Extensions
6. Humanity in the Prophetic Sunnah: Challenges and Solutions
